## HAVE YOU MET BONNIE YET?

The unique pieces of Bonnie Studio's are made to inject more colour and happiness into your life.

### Story behind the label

Bonnie is a young and new Amsterdam based jewelry label. In the summer of 2021, Carlijn, who lived in **Ibiza** at the time, started stringing. With a passion for **coral, gemstones, funky beads** and last but not least **pearls**, a playful and young design was created.

Soon these colourful creative ideas were turned into jewellery.

Our jewellery is easy to combine with gold and silver and you can mix and match the colourful Bonnies with each other.

Our clasps are **stainless steel gold plated 18K** and all the jewels are **handmade**.

We make jewelry like necklaces, bracelets, pendants and anklets designed by a girl who is crazy about colours and pearls!

With Love,

Carlijn Flint

P.s. Did you know that the Bonnies are named by Carlijn's **old lovers**? We gave them some extra color and pearls ;) Which one is your favorite?!

## THE COLLECTION

We work as much as possible with natural products and zero waste. Therefore we work with limited stock.

This collection consists mostly of coral, ceramics, shells, gemstones pearls and funky beads.
